

WASHINGTON, D. C., SUNDAY MORNING, SEPTEMBER 10, 1911.

Demonstration of Nemo Corsets  
By Miss McKimm of New York City.

The latest Nemo invention, "Lastikops Webbing," does wonders in producing perfect style with unheard-of comfort. It is an elastic that doesn't lose its elasticity—outwears any corset.

In other words, it is a new kind of fabric, which gives the famous Nemos still greater superiority over all other makes.

These two new models, for example, are absolutely without a rival in their class:

No. 330 NEMO LASTIKOPS CORSETS, for slender figures; two broad bands of semi-elastic webbing firmly but gently support the abdomen and banish all dangers of tight lacing; high bust, modish long skirt. **\$3.00**

No. 523 NEMO SELF-REDUCING CORSETS, for short-waisted stout figures; the wonderful Lastikops bandlet gives perfect support from underneath; greatest figure reducer ever made. **\$5.00**

The makers guarantee that the Nemos are the greatest corset values in the world, and to this we gladly add our own guarantee.

We have sold Nemos for years, and know how to fit them correctly. Come to us, be fitted in the right Nemo and end your corset troubles.
